March 10, 2009
Embassy Suites – Lynnwood, WA

To Qualify for Wild Seafood Exchange Registration Subsidy:

The TAA program provides technical assistance and cash benefits to eligible WA, OR, and CA salmon fishers in recognition that increased imports and international competition have “contributed importantly” to a decline in prices and a 20 percent drop in prices over the last 5 marketing years, when compared to the most current marketing year.

As a fisherman, if you submitted an application for this assistance in either 2003 or 2004, you qualify for our registration subsidy. You do not have to have actually qualified to receive the cash benefit, only to have submitted an application.

If you have any questions about whether or not you qualify please contact Pete Granger at Washington Sea Grant at (206) 685-9261.
